EDUCATION	Saveetha Engineering College (SEC) ; Chennai, India <i>B.E. in Electronics and Communication Engineering</i> Courses : Artificial Intelligence, Natural Language Processing, Deep Learning, Big Data Mining and Analysis, Prompt Engineering Thesis on “Explainable Vision–Language Generative Framework for Radiology Report Synthesis and Interpretation”	2022 – 2026 CGPA : 8.10/10
EXPERIENCE	Saveetha Engineering College (SEC), Chennai <i>Undergraduate Thesis (Advisor : Jeffin Gracewell J)</i>	India <i>Aug 2025 – Feb 2026</i>
	- Proposed an explainable vision–language generative framework for radiology report image synthesis and interpretation, coupling generative VLMs with structured clinical grounding to produce interpretable, evidence-linked reports. - Designed the model architecture, evaluation protocol, and interpretability analysis; manuscript in preparation for journal submission.	
	Virtusa Consulting Services Pvt Ltd <i>Intern – Delivery (AI / Machine Learning)</i>	India <i>Mar 2026 – May 2026</i>
	- Selected through Virtusa’s Jatayu Hackathon 2026 under the Agentic AI theme. - Designed and built CodePerfect Auditor, an end-to-end healthcare revenue-integrity auditing system reconciling clinical documentation against billed ICD-10 and CPT codes, rendering its reasoning through an interactive Clinical Evidence Graph that traces every flagged discrepancy back to supporting clinical evidence. - Engineered a clinical NLP extraction layer, configurable code-mapping logic, and a discrepancy-detection engine with revenue-impact estimation; shipped as a production-style FastAPI service with a Streamlit reviewer interface.	
PUBLICATIONS	Jeffin Gracewell J, Yuvaraj J, Vikhram S. Explainable SLM-Guided Vision–Language Model for Multi-Class Skin Lesion Recognition. In Proc. ICICC ’26, Lecture Notes in Networks and Systems, vol. 2045, Springer, Cham, 2026. [Paper]	
	Vikhram S, Jeffin Gracewell J. NariRaksha : Gender-Responsive AI for Women’s Safety. In Real-World Impact of AI and Gender Empowerment, India AI Impact Summit 2026 Compendium, UN Women and Ministry of Electronics and Information Technology (MeitY), Government of India, 2026. [Paper]	
PROJECTS	Explainable Vision–Language Model for Radiology Report Generation, Hugging Face	2025
	Building an explainable multimodal clinical intelligence system integrating Vision Transformers and BioGPT for radiological reasoning, structured report generation, confidence-aware inference, and interpretable decision support.	
	Gender-Responsive Safety Model for Women’s Safety (NariRaksha-3B), Hugging Face	2026
	Released a 3B-parameter gender-responsive safety model built on the NariRaksha research, packaged for public deployment and downstream fine-tuning.	
	Benchmark Dataset for Indic Constitutional and Legal Reasoning, Hugging Face	2025
	Constructed a benchmark dataset for evaluating constitutional and legal reasoning in Indic-language NLP systems.	
	Open-Source Constitutional Intelligence Platform for India, GitHub / PyPI	2025
	Built an open source constitutional intelligence platform enabling semantic retrieval and structured analysis of India’s constitutional texts; surpassed 35,000 cumulative downloads on PyPI.	

TEACHING	AI Agents and Open Source Ecosystems for Intelligent Software Development	Mar 2025
	• Delivered to the Department of Artificial Intelligence and Data Science, Saveetha Engineering College.	
	Software Engineering Practices for Reproducible Deep Learning Systems	Sept 2025
	• Delivered to the Department of Computer Science and Engineering, Saveetha Engineering College.	
	Quantum Machine Learning: Emerging Directions in Hybrid Quantum–Classical AI	May 2025
	• Delivered to the Department of Artificial Intelligence and Machine Learning, Saveetha Engineering College.	
	Financial Machine Learning: Macroeconomic Indicators, Forecasting, and Predictive Analytics	May 2025
HONORS AND AWARDS	• Delivered to the Department of Artificial Intelligence and Machine Learning, Saveetha Engineering College.	
	Cyber Law and Compliance Series: Security, Contracts, and IP in the Digital Era	Oct 2025
	• Delivered to the Department of Computer Science and Engineering (Cyber Security), Saveetha Engineering College.	
	• Published Contributor, India AI Impact Summit 2026 (MeitY and UN Women): lead author of <i>NariRaksha: Gender-Responsive AI for Women’s Safety</i> , selected among 23 case studies from 235+ submissions across 50+ countries; individually recognized by Sudeshna Mukherjee , Head of Communications, UN Women India Country Office and member of the UN in India Digital Task Team, at the official publication launch. 2026	
	• First Prize, Department of ECE Project Contest 2026, Saveetha Engineering College: awarded for <i>Explainable Vision–Language Generative Framework for Radiology Report Synthesis and Interpretation</i> , with a cash prize of INR 3,000; certified by the Head of Department, Department of Electronics and Communication Engineering. 2026	
	• Paryavaran Ratna Award, Indian Centre for Wildlife and Environmental Studies, South Asia Region, for contributions to environmental stewardship and sustainability initiatives. 2018	
	• Unique Performance Award for Academic Excellence, Shri Vidhyaa Giri Matriculation Higher Secondary School, Puduvayal, India. 2017	
POSITIONS OF RESPONSIBILITY	• Distinction, Universal Talent Search Examination, Shakespeare Institute of English Studies, India. 2016	
	Advisor, Machine Learning Tech Society, Saveetha Engineering College	Aug 2025 – Present
	• Invited by the Dean of Information and Communication Technology to provide academic and technical leadership for the institution’s machine learning community.	
	• Designed and delivered advanced programs on AI Agents, Quantum Machine Learning, Financial Machine Learning, and emerging AI systems while mentoring student researchers.
